EDUCATION

Shambhunath Institute of   **71.45%**
Engineering and Technology (Allahabad)
B.Tech in **Computer Science &**
Engineering **(2021)**

Swami vivekananda inter colleage(Allahabad)
Intermediate (2016)   *83%*

Bishop johnson and colleage(Allahabad)   *56%*

SKILLS

Languages:

- **Java**
- **Python**
- **C**
- **HTML**
- **CSS**
- **JavaScript**

Tech Stacks:

- **React.js(Learner)**
- **Mysql**

SOFT SKILLS

- Dedication for work
- good listener
- Problem Solving
- Fast Learner

PERSONAL DETAILS

- DOB : 13/07/1998
- MARITAL : Single
- ADDRESS : balrampur house mumfordganj
- HOBBIES : gym and reading book

PROJECTS

lincense plate dectection

- Technology used open cv ,python programing
- automatic plate dectection
- loading the image
- gray scale image
- edge detection using cv2
- finding contours on the original image

Earthquake prediction System

python3 | Machine learning

- a real time machine learning project implemented for predicting the occurrence of the earthquake based on the seismic data
- techinques used in the articles have passed through process before its implemention
- two dimensional have been conducted to highlight seismically active zones
- their work using various tools techinques including software algorithm.

ACHIEVEMENTS

- 4 star python coder on hackerrank
- python language certificate from udemy
- secured rank 2 in colleage coding competion
